Carlson Software is excited to provide an opportunity for users to attend a training conference in the Western US. We believe that training can improve the workflow and efficiency of any organization. There will be a range of courses offered.

The format for this conference will be two tracks. One focused on field software and hardware. The other track focused on the office software. Each track will have 8 courses. Certificates documenting your attendance will be made available at the end of the conference. Yes, you can change tracks, taking some classes from each track.

We will have 45 minute breaks between classes. During these breaks attendees can visit with sponsors and see the newest hardware. A small computer lab will be available to test what you just learned or explore other aspects of the software. The computer lab will be open and manned during all conference hours. Presenters and Carlson staff will be available during breaks to discuss questions you may have.

Snacks and beverages will be available during the breaks mid-morning and mid-afternoon. Lunch is provided each day. Breakfast and Dinner are on your own.

Register

Register by contacting your local reseller of Carlson Software and/or hardware. A list of resellers can be found at the Carlson website under the purchase tab.

The conference attendance is limited to 300 attendees. Register with your dealer early to ensure a seat at the user conference.
